## Summary

Dedicated and meticulous full stack Java developer seeking to add value to exciting projects and obtain practical software development experience. My goal is to use my strong foundation in web development technologies and Java programming to meet client expectations and meet business objectives while delivering high-quality solutions.

## Education

**Vels Institute of Science and Technology and Advanced Studies** May 2024  
*Bachelor of Science in Computer Science (CGPA: 7.59 / 10.00)* Pallavaram, TamilNadu

**St.Joseph Matriculation Higher Secondary School** April 2021  
*Higher Secondary Education (Percentage - 84)* MaraiMalaiNagar, Chengalpattu, TamilNadu

**St.Joseph Matriculation Higher Secondary School** April 2019  
*Secondary Education (Percentage - 71)* MaraiMalaiNagar, Chengalpattu, TamilNadu

## Experience

### Java Development | Intern

- Pumo Technovation (April 2024-August 2024)
- Gained experience in front-end and back-end technologies including Java, HTML, CSS, Bootstrap, SQL

## Projects

### Java ChatBot | Java

- Developed a simple Java chatbot to handle basic user interactions using loops and conditionals.
- Implemented a text-based interface for real-time conversation flow.
- Enhanced user experience with structured responses to common queries.
- Demonstrated proficiency in core Java programming concepts.

### Local N.A.S. Server | TrueNAS Core

- Developed a home server using TrueNAS Core for secure data management.
- Configured network settings for reliable device access.
- Utilized TrueNAS Core for efficient file storage and retrieval.
- Automated tasks and maintenance with shell scripting.
- Implemented robust security measures, including encryption and firewalls.

## Technical Skills

**Languages:** Java, C, C++, HTML5, CSS, Bootstrap, SQL, MySQL  
**Concepts:** Git, GitHub, Operating System, Networking, Troubleshooting

## Certification

### Full Stack Web Development

- Pumo Technovation
- Expected October 2024
- Covered front-end and back-end technologies including Java, HTML, CSS, Bootstrap, SQL
